Art. 242

Miscelatore per bidet. Mixing tap for bidet.
Art. 243

PIATTO DOCCIA

Disponibile nelle versioni dx e sx.

Left - right shower plane.

COME INSTALLARE IL LAVABO MONOBLOCCO IN MARLUX®.

Il piano lavabo va posizionato in altezza a circa cm.80/83 dal pavimento. Posizionare le staffe al muro, tracciare la loro collocazione e controllare la loro orizzontalità con una livella a bolla e procedere per il fissaggio delle stesse al muro con viti adatte. Distribuire un filo di silicone sulla parte superiore delle staffe e sulla superficie posteriore dell'alzatina del piano lavabo, quindi collocare il piano lavabo sulle staffe. Controllare infine con la livella a bolla se il lavabo è posizionato correttamente, in caso contrario spessorare tra il piano lavabo e le staffe.

HOW TO FIX THE BATHROOM UNIT IN MARLUX®.

The bathroom unit in Marlux® has to be fixed about 80/83 cm. high from the floor. Fix the supporting shelves on the wall, position them and check that they are perfectly horizontal with a spirit level then go on by fixing them on the wall with suitable screws. Spread silicone both on the upper side of the supporting shelves and on the back of the raising edge of the bathroom unit. Now fix the bathroom unit on the supporting shelves. At the end check with the spirit level if the bathroom unit is correctly positioned, otherwise sand between the bathroom unit and the supporting shelves.

ISTRUZIONI DI PULIZIA E MANUTENZIONE

Utilizzare detergenti liquidi non abrasivi. E' consigliabile usare gli stessi detergenti adatti alla pulizia degli specchi. E' sconsigliato l'uso di detergenti in polvere e granulosi, spugnette abrasive e pagliette metalliche in quanto possono rendere opaca la superficie.

CLEANING AND MAINTENANCE

Use liquid, not abrasive detergents. It is better to use the same detergents suitable to the cleaning of the mirrors. Do not use powdered detergents, abrasive sponges and steel wools because they may opacify the surface.

SISTEMA DI RIPRISTINO

Il prodotto del nostro "KIT DI RIPRISTINO" serve a: eliminare graffi, macchie, aloni di sigaretta; rilucidare alcune parti del lavabo, nel caso di eccessiva usura.

RESTORE

The product of our "RESTORATION KIT" is useful for: removing scratches, stains, cigarette scorches; repolishing some parts of the bathroom unit in case of excessive wear.

PEZZI SPECIALI

A richiesta è possibile realizzare lavabi monoblocco, plafoniere e profili in modelli e colori diversi da quelli di serie.

SPECIAL PIECES

On request it is possible to realize bathroom units, ceiling-lights and profiles in different model and colours.

SERVIZIO DI MANUTENZIONE

A richiesta può essere eseguito il lavoro di manutenzione nel tempo direttamente dal nostro personale specializzato in Italia e all'Estero.

MAINTENANCE SERVICE

On request we can offer maintenance and restoration service by our specialized staff in Italy and abroad.

NOTE

Colori, venature e misure potranno avere una tolleranza di qualche millimetro.

NOTES

Colours, veins and measures may have a minimal tolerance.
